Report

The data comparison tables for MW01 and MW02 have been cleared through QA, modified accordingly and added into the report. These tables now appear as Table 1 and Table 2 in the Report. References to any remaining figures have been deleted and the text revised accordingly. All other comments and deletions have been incorporated

Appendices

Section A data tables have been reviewed and are final.
Section B QA/QC is complete
Section C: Transmittal of Contract Laboratory Results and Evaluation of Laboratory-Specific Quality Control Measures, U.S. Environmental Protection Agency Monitoring Well 02, Pavillion, Wyoming, U.S. Geological Survey, 2012

We need to know if anyone has, in writing, permission for EPA to include the USGS data in our report. Does anyone have this?
